Satisfaction Notice

On behalf of the Cisco - Tetration team, I would like to thank Cuberto for the very successful collaboration and design contribution to our product. Cuberto proved to be a reliable and responsible partner that we were comfortable to collaborate with.

Our teams worked in sync, and we did not experience any discomfort in communication. Cuberto was able to quickly pivot and adapt when priorities changed. They take great pride in their work, from the most sophisticated designs all the way down to the day-to-day maintenance of a design system.

We're looking forward to working again in the future.

Sincerely,
